

Case Reference.

3529

Industry:

API / Refining

Application:

Fin Fan motor

Previous solution:

OEM seal

Application:

Fin Fan heat exchanger motor

Solution:

LabTecta TE

LabTecta TE installed

Original description:

A refinery in Europe was looking for a better solution to seal the motors on their fin fan heat exchanges. After evaluating multiple sealing options, this customer chose the LabTecta as the seal of choice. 9 labtectas with sizes from 50 – 70 mm shafts were installed on new motors in January 2009.
